Experience

Starehe, Nairobi
Junior Bug Fixer | 05/2023 - Present
Reproducing and Identifying Bugs: The first step I take is to consistently reproduce the bug. By understanding the steps or conditions that trigger the bug, I gain insight into its root cause. This involves analyzing error messages, reviewing logs, or conducting user interviews to gather additional information. Currently, I am helping people to fix bugs by following this process.

Starehe, Nairobi
Junior Developer | 05/2023 - Present
I had the opportunity to learn from experienced developers, participate in code reviews, and contribute to team projects. I developed a strong foundation in front-end development principles, JavaScript, and React best practices.

Skills

Javascript, GIT, Html5, APIS, CSS, Software development, Fullstack developer

Education

Moringa School | Nairobi, Starehe
Software Engineering | 05/2023
Programming Javascript, Node.Js, Web - Frontend React, NextJs, Redux, HTML5, CSS, Web - Backend Express with Node.JS

Nairobi Technical Training Institute | Nairobi, Starehe
Diploma in Chemical Engineering | 10/2022
Problem-solving: Chemical engineers are trained to analyze complex problems and develop innovative solutions. This involves applying scientific principles, mathematical modeling, and critical thinking to design processes, troubleshoot issues, and optimize systems.

Nduluni High School | Makueni, Sultan Hamud
Kenya Certificate of Secondary Education | 11/2018
